

This memo is in septuplicate, a copy to each of you, so we can begin co-ordination for our study on WYEC-A

Reid: For Monday please start formulating programming possibilities time-wise; Have Bruce working on re-write methods; Get Finston in on the whole project; Have Lumpy post a sign-up list for shifts by day only - hours to be arranged. This should be done pronto.

Jack: Please start working out possible rate-scale ratios, etc.

Ted: Can you begin to shape up poll questions?

Bill: A possible completion date for the technical plan is hereby requested.

Tom and Dick: Please consider all of the above and be ready with suggestions and opinions.

I am trying to scare up a letter that will present the new conception to our sponsors and I hope to have this as soon as possible after the meeting where we will decide on a definite log and rate scale.

If anybody has any key idea that I have failed to note here, please circulate them to all of us before the meeting.

Thanks,

James B. Speed  
Chairman
